PRO-SWING 45

Lightweight Detecting Harness

Designed for ultimate convenience and functionality. Minelab's innovative W8 distribution system and specialist features allow you to spend more time in the field, detecting with ease.

Detect for longer with a PRO-SWING 45!

Advantages:

8+8 Versatility

Custom fit your harness through 8 adjustment points and attach other detecting equipment in 8 separate places.

Quick Release R-clip

Easily switch between detecting and digging at the flick of a clip. Clip on to engage W8 technology and clip off for fuss free digging.

Left & Right Capability

Suitable for both left and right handed users with a simple click in J-strut. Follow the easy to assemble instructions for your preference.

Padded Back Cushion

Ultimate comfort and improved ventilation from the extra wide strap and additional padding.

Suits Any Detector

Universal S-cuff attachable to any detector - one size fits all. Simple velcro design allows instant portability.

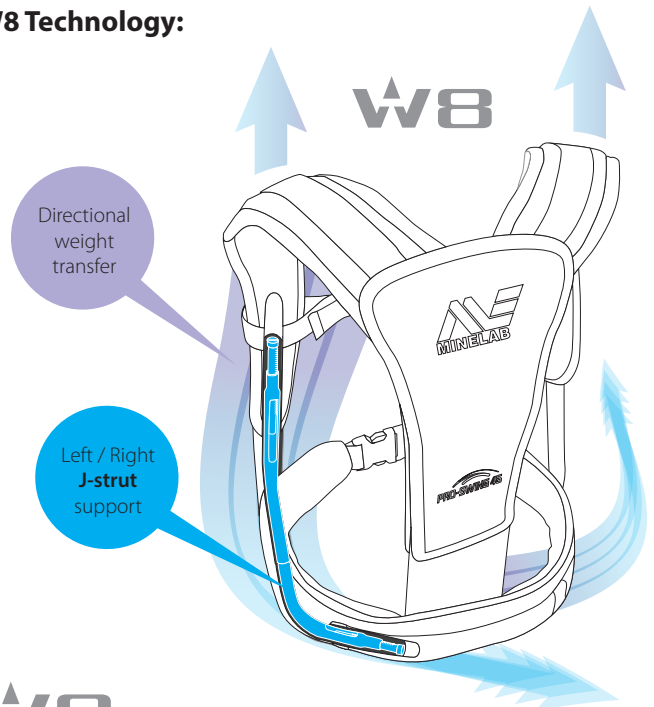

Simple Bungee Adjustment

One handed operation to quickly adjust detector distance. Ensure correct detecting posture for increased comfort in the field.

W8 Technology:

W8

The ergonomic harness design evenly distributes weight from your shoulders, via the J-strut, making your detecting swing lighter.
